Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 October 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

This Office action is in response to the application filed August 19, 2003 and the election filed October 7, 2005.

Election/Restriction

Applicant's election with traverse of Group II, i.e., claims 13-16 and 18-20, and species (b), i.e., Figures 11-13 with claims 13-16 readable thereon, in the reply filed on October 7, 2005 is acknowledged. The traversal is on the ground(s) that "Applicant submits that examination of the claims of the entire application will not impose undue burden". This is not found persuasive because applicant has made a general allegation without stating how there would not be a lack of serious burden if the restriction were not made.

With respect to applicant's statement that that "claim 13 is generic to Figures 1-10 and 11-13 and that therefore the election requirement is improper" is not well-taken. *In particular*, because a claim was not originally deemed to be generic, does not make the election requirement improper. Applicant is now stating that claim 13 is generic to which the examiner agrees.

The requirement is still deemed proper and is therefore made FINAL.

Claims 1-14, 17, and 18-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention and species, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The use of the phrase "may be" in line 6 of claim 13 renders the claim indefinite since what "may be" to one "may not be" to another. *Thus*, the metes and bounds of the claim cannot be properly ascertained since one would not know whether the recitation proceeding the phrase "may be" is being positively required or not.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 6,142,321 (West '321).

West '321 discloses an adjustable shelf assembly comprising a central shelf unit (right side of Figure 1) comprising a top surface, a front edge, a rear edge, a first side edge and a second side edge; a first extension shelf unit (shown in Figure 3) slidably arranged with respect to the central shelf unit such that the width of the assembly may be increased by extending and

Art Unit: 3634

decreased by retracting the first extension unit with respect to the central shelf unit; the first extension shelf unit (see Figure 3) having a support surface, a front edge (left front of Figure 3), a rear edge (right rear of Figure 3), a proximate side (right of Figure 3, near 164) and a distal side (left side of Figure 3, near 174) which is located distal to the central unit; a front member secured to the front edge of the central unit having an upper lip and a lower lip (as at 424 and 426 in Figure 4A); wherein the upper and lower lips (424, 426) are formed into channels (420 and 422) permitting the insertion of a flexible member.

It is noted that the flexible member (recited in the last 2 lines of claim 13) is not being *positively* claimed. *Thus*, a reference need only be capable of being used with such an element in order to meet the language of the claim and West '321 therefore meets this limitation.

Allowable Subject Matter

Claims 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
